My Inner Landscape

Write, draw, or use single words. Start anywhere, and leave spaces blank if you like. Roots are where you come from; the top is who you're becoming.

WEATHER
What's weighing on me
worries, pressures, inner critic

FALLING LEAVES
What I'm letting go of

BRANCHES
How I spend my life
roles, work, commitments, interests

ROOTS
Where I come from
family, culture, early lessons, beliefs I inherited

SOIL
What I need to thrive
rest, safety, belonging, meaning, play
